

Figure 1: Scatter plot showing the relationship between Allele frequency (Y-axis) and Allele count (X-axis). The plot displays data points for various alleles, categorized by their frequency and count. The Y-axis ranges from 0 to 1.8, and the X-axis ranges from 0 to 12. The legend indicates that the data points represent different alleles: C/C, C/T, T/T, No Template Controls, and Non-Informative.
